DETAILED ACTION

REASONS FOR ALLOWANCE

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose the combination of all the limitations recited, including disposing a plurality of solder balls into each of the openings and performing a heating process simultaneously so that the solder balls are bonded to the residual portion of the under bump metallurgy layer temporarily; disposing a flux material above the wafer so as to at least cover the surface of each of the solder balls; performing a reflow process so that the solder balls are bonded to the residual portion of the under bump metallurgy layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
